Intuit Quickbooks

Senior Product Designer,
Payments
Mountain View, CA
Jun 2025 - Present

- Designed end-to-end user experience for surcharging and recurring payment features in Quickbooks, leading a data-driven product strategy pivot that contributed to a \$7M+ annual revenue goal through improved payment conversion across merchant cohorts
- Drove deep customer research including user interviews, live product audits, and competitive analysis across multiple user segments, resulting in a simplified invoicing UI that reduced form complexity by 57%
- Built scalable AI-assisted workflows using Figma and Claude, including a cross-functional source-of-truth design system file and an automated tool to organize 120+ product files, improving team-wide design consistency

Capital One

Senior UX Designer,
DataAI.xd
San Francisco, CA
July 2022 - Jun 2025

- Spearheaded registering, discovering, and understanding experiences of 4000+ data usages and 56,000+ high priority data elements, streamlining data management.
- Designed a SoR for standardized event data of 500+ datasets, enabling greater consistency and usability across teams.
- Led research and iterative design to model 5000+ attributes, improving data usability while reducing data product modeling time by 30%.
- Drove the full decommissioning of two third-party tools, consolidating workflows and reducing operational costs.

UX Designer,

Auto Refinance
Plano, Texas (Remote)
July 2021 - July 2022

- Collaborated with engineering, legal, and product to launch a modular auto refinance journey, achieving a 7.2% increase in Sign-in to Submit and a 4.7% increase in Sign-in to Contract.
- Defined the north-star vision for 'one-swipe' to simplify the refinancing processes and reduce user friction.

Eureka Surveys

Product Designer
New York, NY
Sept 2020 - Jan 2021

- Owned the 0→1 product design in a lean startup environment, leading end-to-end design from market research and UX strategy to UI execution for the #1 survey-taking web app on the iOS App Store.
- Optimized user flows and interaction of survey selection and completion, contributing to a 200% increase in user growth.

WarnerMedia

Interaction Design Intern,
Innovation Lab
New York, NY
Oct 2020 - Dec 2020

- Conceptualized and designed AI-driven mixed reality (MR) experiences to enhance user engagement with HBO and WarnerMedia streaming content.
- Explored applications of machine learning in interactive storytelling, creating prototypes that personalized content recommendations and immersive viewer interactions.
